STATEMENT OF COUNSELING ORIENTATION

Alliance Graduate School of Counseling seeks to provide counseling education that is grounded in a theologically evangelical Christian view of epistemology, human nature and healing. While recognizing that there are different viewpoints within the Christian community, we believe that the Bible provides us with significant foundational perspectives on human personality, pathology and healing.

The Graduate School of Counseling takes an “open universe” view of epistemology and causation. This view suggests that the most accurate and comprehensive understanding of human functioning and healing is gained by consideration of natural, supernatural and interactive (natural x supernatural) influences.

Alliance Graduate School of Counseling views human nature at its best as a finely-tuned, multi-dimensional, integrated system. Human beings are fundamentally psychospiritual beings because they are created in God’s image. Optimal human functioning occurs when human beings live according to God’s design as given in the Bible.

Because of The Fall, human beings experience the pain of disorder, division, disintegration, dissension, and dysfunction. Human personality and relationships are often fragmented due to irrationality, chaos and distortions of sin. Sin, from a psychospiritual perspective, is living in contradiction to God’s design. Sin refers both to an underlying human condition of fallenness due to original sin, and to specific acts committed by an individual or by others against a person. The destructive and disintegrative impact of sin is experienced through individual, interpersonal and institutional choices and channels.

In addition to the impact of sin in its psychospiritual sense, human beings are affected by the limitations of their finitude. Choices that produce chaos and pain are often the result of limited or erroneous knowledge and understanding. Dysfunctional patterns of learning and conditioning may also produce significant difficulties.

Finally, in their attempts to cope with the pain of unmet psychospiritual needs, human beings often unwittingly make choices that worsen their pain and lead to further psychospiritual and relational deterioration.

Alliance Graduate School of Counseling sees psychospiritual healing as ultimately the work of God’s grace, wisdom and love communicated through the vehicle of a competent and sensitive counselor. The exact role of the therapist varies according to the particular needs and problems of the counselee, couple or family unit. Healing interventions are multi-modal and comprehensive. Because of our open universe view, analysis and interventions include consideration of the natural/psychological and supernatural/spiritual dimensions. Healing may also include bio- and social-psychological intervention due to the fundamental biological and relational nature of human beings.

STATEMENT OF FAITH AGREEMENT

The M.A. in Counseling program is committed to a thoroughly evangelical Christian view of humanity and the world.

We believe:

There is one God, who is infinitely perfect, existing eternally in three persons: Father, Son and Holy Spirit. Jesus Christ is true God and true man. He was conceived by the Holy Spirit and born of the Virgin Mary. He died upon the cross, the Just for the unjust, as a substitutionary sacrifice, and all who believe in Him are justified on the ground of His shed blood. He arose from the dead according to the Scriptures. He is now at the right hand of the Majesty on high as our great High Priest. He will come again to establish His kingdom of righteousness and peace. The Holy Spirit is a divine person, sent to indwell, guide, teach, empower the believer and convince the world of sin, righteousness, and of judgment.

The Old and New Testaments, inerrant as originally given, were verbally inspired by God and are a complete revelation of His will for the salvation of human beings. They constitute the divine and infallible rule of Christian faith and practice.

Man was originally created in the image and likeness of God; he fell through disobedience, incurring thereby physical and spiritual death. All are born with a sinful nature, are separated from the life of God, and can be saved only through the atoning work of the Lord Jesus Christ. The portion of the impenitent and unbelieving is existence forever in conscious torment; and that of the believer, in everlasting joy and bliss. Salvation has been provided through Jesus Christ for all; and those who repent and believe are born again of the Holy Spirit, receive the gift of eternal life, and become the children of God.

It is the will of God that each believer should be filled with the Holy Spirit and sanctified wholly, being separated from sin and the world and fully dedicated to the will of God, thereby receiving power for holy living and effective service. This is both a crisis and a progressive experience wrought in the life of the believer subsequent to conversion. Provision is made in the redemptive work of the Lord Jesus Christ for the healing of the mortal body. Prayer for the sick and anointing with oil are taught in the Scriptures and are privileges for the church in this present age.

The church consists of all those who believe on the Lord Jesus Christ, are redeemed through His blood, and are born again of the Holy Spirit. Christ is the Head of the Body, the church, which has been commissioned by Him to go into all the world as a witness, preaching the gospel to all nations.

The local church is a body of believers in Christ who are joined together for the worship of God, for edification through the Word of God, for prayer, fellowship, the proclamation of the gospel, and observances of the ordinances of baptism and the Lord’s Supper. There shall be a bodily resurrection of the just and the unjust; for the former, a resurrection unto life; for the latter, a resurrection unto judgment.

The second coming of the Lord Jesus Christ is imminent and will be personal, visible and premillennial. This is the believer’s blessed hope and is a vital truth which is an incentive to holy living and faithful service.

STANDARD OF CONDUCT AGREEMENT

The Alliance Graduate School of Counseling recognizes the value of maintaining standards that contribute to the atmosphere on campus, foster fellowship with a wide range of Christians and, in many instances, assist in strengthening our Christian testimony to our community. Students and employees are asked to be supportive of these standards. The Alliance Graduate School of Counseling is for earnest Christians who are sensitive to the principles of Christian living that are found in the Bible. The Bible establishes basic principles for Christian character and behavior. These include the following:

• The Lordship of Christ over all of life and thought. This involves a life of faith in wholehearted obedience to the moral teaching of the Bible and careful stewardship in all of life.

• The responsibility to love God with our whole being and to love our neighbor as ourselves. Unselfish love should be the motive in all decisions, actions, and relationships.

• The responsibility to pursue righteousness and practice justice and mercy to everyone.

• The need to exercise our freedom responsibly within the framework of God's Word, with loving regard for the sensibilities of others.

• Regular participation in church worship and activities, which forms a necessary context for Christian living.

Christian lifestyle is expected of all members of the AGSC community. It consists of practicing Christian virtues and avoiding attitudes and actions that the Bible condemns as sinful. Christian virtues that members of this learning community are expected to exhibit include humility, honesty, a forgiving spirit, faith, hope and love. Attitudes that the Bible condemns and the Alliance Graduate School of Counseling regards as spiritually or morally unacceptable include greed, jealousy, pride, lust, bitterness, uncontrolled anger, and prejudice based on race, sex, or socio-economic status. In addition, drunkenness, stealing, profanity, unfair discrimination, dishonesty, occult practices, illegal activities, and sexual sins such as pre-marital sex, adultery, and homosexual behavior are unacceptable.

The Alliance Graduate School of Counseling expects students to refrain from alcoholic beverages, drugs, tobacco and gambling. Students are expected to exercise discernment so as to abstain from all activities that tend to be morally degrading. Tangible evidence of maturing Christian convictions and discerning judgment is expected on the part of each student. These standards apply to the student while enrolled in any of the programs of the institution on campus or off campus.

The Alliance Graduate School of Counseling reserves the right to dismiss a student who, in its judgment, does not conform to stated regulations governing student conduct or to the expressed principles, policies, programs and expectations of the school. Your signature indicates your commitment to abide by these standards while enrolled in the M.A. Counseling program.

The Student Handbook, available from the Student Services Office, describes in detail campus student life, expectations, student services, and additional policies, procedures, programs, and regulations designed to promote a sense of community. Each enrolled student receives a handbook at the beginning of each school year. The handbook will be sent upon request to any inquiring student.

The Family Education Rights and Privacy Act of 1974 permits enrolled college and seminary students access to certain credentials in their files. Though the M.A. in Counseling program has permitted students access to previous educational records, such as college and seminary or graduate school transcripts (if a transfer), and his or her educational record in the M.A. in Counseling program, letters of recommendation or references traditionally have not been shown to students.

Because of the importance of preserving the confidentiality of letters of recommendation, the Family Education Rights and Privacy Act permits an educational institution to suggest that an applicant may waive his or her right of access to letters of recommendation. Signing such a waiver is not required as a condition of admission, receipt of financial aid from, or receipt of any other services or benefits from the M.A. in Counseling program.

In order that the institution may have valid recommendations, it is suggested that the applicant consider waiving his or her right to see such letters of recommendation. Please be assured that letters of recommendation (along with transcripts and your own application) are used solely to determine an applicant's qualification for admission. Alliance Graduate School of Counseling will furnish (upon the applicant's request) the names of all individuals supplying references. However, the identity of those to whom he or she gives reference forms is generally known to the applicant. Signing the waiver statement on the reference form is all that is necessary on your part.
