### To be completed by the Student

Financial Aid Policy: Each degree program has a limited number of semesters of financial aid (any institutional aid) eligibility. Change of program from an MDIV to another program, after enrollment, will reduce your semesters of eligibility to that program's limit. Changing from any degree program into a program with more credit requirements, after enrollment, will increase eligibility to the longer program's limit. If your GPA drops below 2.5 during any given semester, these awards will be lost unless a cumulative GPA of 2.5 is regained.

I have read and I understand this policy.
